

WE WANT TO HEAR FROM YOU! PARENT INVOLVEMENT SURVEY

What is this survey about?

The Parent Involvement Survey is an annual survey for parents/guardians of children receiving special education services. The survey helps everyone to learn more about how well school districts and charter schools engage parents/guardians.

Why should I take this survey?

You should take this survey to ensure that your voice is heard! Your responses matter because they will help your school district or charter school understand what they are doing well and how they can improve. Also, the Texas Education Agency (TEA) will use the results from across all school districts and charter schools to help support and guide improvements to special education services.

Are my answers confidential?

Yes, your answers are confidential. Individual responses are not shared with school districts or charter schools.

Do all parents/guardians of students receiving special education services in my child's school receive a survey?

It depends. In school districts or charter schools that have 20 or fewer students receiving special education services, all parents/guardians will receive a survey. In school districts or charter schools that have more than 20 students receiving special education services, students will be randomly selected and their parents/guardians will receive a survey.

Can I take the survey even if I was not selected to receive one?

Only parents who receive an invitation to take the survey can complete one. This process helps to ensure that we have a picture that represents diverse opinions from parents/guardians at the school district and charter school level.
